Accion is proud to present one of our clients and the passion they have for their business. Also, three great tips to keep your small business going strong this summer!

Our Clients

Cabinet Plus, Ltd.

Local San Antonio Business owner, Curtlis Rodriguez, has worked hard to create and maintain his cabinets, countertops, and remodeling business for the past eight years. Rodriguez received his second **Accion Texas** loan May 31. His focus is to obtain working capital for when he has larger jobs so that he has supplies and materials on hand.

Rodriguez has over 20 years experience working in this field. He rose through the ranks of what is now his largest competitor. After working in every department of the company, and learning everything he could as the top seller, he decided he would start his own business. His mission has always been to have an affordable, easily accessible family business that was dedicated to using Texas labor and materials.

Although Rodriguez had this great idea for starting his own cabinetry business, he struggled getting past several obstacles in the beginning. He was articulate in all there was to know about cabinetry, but was in a "learn-as-you-go" financial process. After years of struggles, Rodriguez married and his wife took over the financial and marketing aspect of the downtown-area business. With her help, Cabinets Plus, Ltd. has been listed on the internet through several social media sites and has enjoyed making a profit.
